

linelube SAE Engine Oils

Product Description

SAE Oils are a range of high-quality monograde engine oils manufactured from solvent refined paraffinic base oils blended with antioxidant & corrosion inhibitors.

Features & Benefits

- Multiple applications
- Protects against oxidation and corrosion

Applications

Low detergent/dispersant lubricants suitable for older engines where modern additive packs could have a detrimental effect on engine components. SAE oils are ideal for lightly loaded canal boats, old generators. Can also be used as gear oil in classic automotive and motorcycle gearboxes.
